MEMORANDUM FOR THE RECORD

SUBJECT: H. R. 12259 Re Determination of the Amount And Validity
of Claims Against the Government of Cuba

Mr. Franklin Schupp, Staff Consultant, House Foreign Affairs Committee, had requested informal advice concerning the cut off date for claims established in this bill 1 January 1959; whether duplicate compensation might be awarded under the Act for potential claimants who might have had an association with the Agency; and whether there might be any other matters ~~in~~ not set forth in the bill which would be of interest to the Agency but might be covered by the Committee report. My response was negative on ~~is~~ his three points. I thanked Mr. Schupp for his consideration and for offering the assistance of the Committee with regard to the content of the Committee report that stated in effect that our review indicated that the 1 January 1959 was probably the most appropriate cut off date for the purposes intended and that we are unaware of any instances where a claim might be made under the bill which would effect a duplicate compensation.
